

## UBD Cleantech AB has achieved a new supply contract with Volkswagen Genuine Parts in Baunatal.

Volkswagen Genuine Parts has acknowledged a huge potential in offering its customer professional remanufactured spare parts.

“UBD Cleantech have offered us a unique process and potential savings, in it’s process of remanufacturing of Diesel Particulate Filters” expresses Product manager, Paulo de Freitas. In June UBD achieved the nomination from Volkswagen after having passed the quality audit performed by the Quality Engineer Stefan Lanatowitz.

First supply is scheduled for August 2011.

This is a milestone in UBD Cleantech history and of course an important brick in building the company’s future and volume said Managing Director, Roland Johansson.
